Is there any sexual activities taking place at your events?

Well what happens at The Chocolate Parties stays at the parties. You should never kiss and tell. However we will tease you a little. We do cater to all "Playzures" in the "Dynazty". So it all truly depends on the venue and event. Some places sexual activity is just not appropriate. We don't try to create events for the sole purpose of sexual encounters. At times sexual activities are more of a by product from sexy people interacting and forming bonds or just hooking up. We always condone safe sex practices and recommend individuals to act responsibly. If something sexual happens, then its between consenting adults, who have decided of their own free will what they wish to do. Just like any other party or social gathering. Our guests are expected to use their own discretion and good judgement.

Here's the teaser...In general you may see female nudity, breasts and butts. Sometimes there is sexual activity. There's plenty of girl on girl action dancing, touching, and kissing. Men are respectful and are expected to follow and not lead. Since this is a couples driven event. The girls dictate the activities. Which ensures happiness and a great show, so to speak. Usually things are simply very sexy! Sexual activity is really very random and up to individuals to create or decide if they want to do more sexual

things. There are always some people who like different things or extremes. We don't judge we just do our own things and allow people their ultimate freedom in a sexy and well prepared atmosphere. The options are open to explore and the sky is the limit, so decide for yourself and make choices you will be satisfied with and enjoy whatever you can safely and responsibly. The choices are all yours!
